## PRODUCT LITERATURE

### SARAFINISH-SS

#### Product Information

Sarafinish-SS is a wash fast finishing agent for all types of fibres in any form i.e knits,wovens or garments. Finishing with Sarafinish-SS gives crisp dry handle to the treated material. Sarafinish-SS also improves resistance to pilling and gives anti-snap finish.

By using Sarafinish-SS, seam slippage tendencies are reduced. Sarafinish-SS can be applied by exhaust as well as pad application. The product can be applied in combination with water-repellent agents and with resins. Finish obtained with Sarafinish-SS is basically resistant to washing & dry cleaning.

#### Key Features & Benefits

##### Key Features

-----  
Universal

Versatile

Multifunction

Compatibility

##### Benefits

-----  
Suitable for all natural, synthetic fibres and blends

Can be applied by exhaust and pad

Anti-pilling, Anti-slip, Anti-snap finish can be developed

Can be used with resins as well as fluorochemicals

#### General Characteristics

Physical appearance : Straw white to milky white liquid  
Ionic nature : Cationic  
pH of 1% solution : 5 +/- 1  
Miscibility : Miscible with water  
Compatibility : Compatible with cationic & nonionic products, water repellent agents, softeners and resins  
Stability : Stable to hard water & dilute acids. Not stable to alkalies, phosphates & excess sulphates.

#### Application

1. Exhaust Application:

Depending on the end use requirements,

## PRODUCT LITERATURE

### **SARAFINISH-SS**

0.5-4% of Sarafinish-SS  
pH 5, treat at 35-40 deg.C for 20-40 min.

#### 2. Pad Application:

5-20 g/l Sarafinish-SS  
Pad at pH-5, 60-70% pick-up, dry/cure as per the normal finishing conditions.

### **Precautions**

**Storage** : Store in cool, ventilated shed away from heat and direct sunlight.Storage temperature should not exceed 35 deg C.Close lids firmly to avoid contact with air and moisture.

**Shelf Life** : 8 months from the date of manufacturing, if stored under controlled conditions.
