## PRODUCT LITERATURE

### SARAMERCE-LF

#### Product Information

Saramerc-LF is a low foaming mercerising wetting agent. Addition of Saramerc-LF in the mercerising bath ensures uniform mercerisation and hence uniform dyeing. During caustic recovery Saramerc-LF does not lead to foaming and therefore does not interfere in recovery.

#### Key Features & Benefits

Key Features

Benefits

-----  
Low foaming

-----  
Does not interfere in caustic recovery

Good stability

Suitable for even hot mercerisation

#### General Characteristics

Physical appearance : Light Brown clear liquid.

Ionic nature : Anionic

pH of 1% solution : 7 +/- 1

Miscibility : Readily miscible with water

Compatibility : Not compatible with cationic products

Stability : Stable to dilute acids & caustic at mercerising concentration

#### Application

2-6 g/l Saramerc-LF can be added in mercerisation bath depending upon the quality of substrate and equipment. Optimisation of concentration of Saramerc-LF can be carried out in lab before bulk trial.

#### Precautions

Storage : Store in cool, ventilated shed away from heat and direct sunlight. Storage temperature should not exceed 35 deg C. Close lids firmly to avoid contact with air and moisture.

Shelf Life : 9 months from the date of manufacturing, if stored under controlled conditions.
