

## PRODUCT LITERATURE

### SARALAN-BMW

#### Product Information

Saralan-BMW is a APEO free wetting cum detergent for scouring of cellulosic and its blends. The product is also suitable for high temperature combined scouring and bleaching. Due to its alkaline stability, product is recommended for continuous pretreatment range.

#### Key Features & Benefits

##### Key Features

-----

Stable to high  
concentration of alkali  
& oxidising agents

Liquid

##### Benefits

-----

Suitable for continuous scouring/  
bleaching and oxidative desizing/  
scouring

Dosable

#### General Characteristics

Physical appearance :	Colourless viscous liquid
Ionic nature :	Non-ionic
pH of 1% solution :	3 +/- 1
Miscibility :	Easily miscible with water.
Compatibility :	Compatible with cationic, anionic, nonionic products
Stability :	Stable to dilute acids, dilute alkalies and oxidising agents.

#### Application

1. For combined scouring and bleaching :

0.3-0.5%	Saralan-BMW
2-3%	Caustic soda flakes
2-8%	H2O2 50%
0.5-1%	Saraquest-2UD
0.3-1.2%	Sarastabil-MRS

Treat at 98 deg C for 45-90 min. or 110 deg.C for 15-45 min.

2. For combined scouring and bleaching on continuous range
