KEY PRODUCT LIST

SR. NO.	PRODUCT	DESCRIPTION
1	Acidon-PA	A 100% concentrated product based on sliding pH principle for polyamide.
2	Careguard-66 (NEW) / 6NI / SV	Fluorocarbon based on C6 chemistry with high performance for oil and water repellency.
3	Careguard-314 / CN	Non-ionic no roller build up C6 fluoro for high speed finishing especially on synthetics.
4	Careguard-FF / Ecoguard-SYN (Conc)	Fluorine-free water repellents.
5	Catfix-511	A cationising agent for pigment dyeing.
6	Eliminator-GLO	A speciality product to overcome oligomers deposits in the dyeing of polyester fibre tops and yarn in package form.
7	Estofeel (Conc) / Moisture-Guard	New generation product in pellet form which pass Nike and M&S wicking test for moisture management on synthetics.
8	Fixanol (Conc) / Saradye-FN	High quality formaldehyde free dyefixing agents for reactive/direct dyes.
9	a) Flamguard-PS b) Flamguard-BC	Innovative exhaustable flame retardent for synthetics. A flame retardent for back coating application.
10	Ironstrong (Conc)	High iron chelating agent in powder form.
11	a) Sarafix-NEW b) Nylofix-993	An acid stable dyefixing agent for polyamide especially for light and pastel shade. A powder version cost effective dyefixing agent for polyamide.
12	Quench-APY / LCL	Excellent product to prevent phenolic yellowing of lycra, polyamide and polyester fabrics.
13	Rubfast-467	An unique problem solver to improve wet rubbing fastness.
14	Saraquest-W (Conc)	High chelating Ca+, Fe+ sequestering agent in powder form.
15	Saraguard-FL	Cot effective high durable anti microbial.
16	Sarabloom-SL / 2951	Colour blooming agents for all types of fabric.
17	Saradye-PLE	A special formulation to improve fastness to chlorinated pool water for cotton.
18	Sarasol-1101	An innovative auxiliary for enhancing colour value and sharpness in digital printing.
19	Saradye-429 (MOD)	A speciality product to improve fastness to chlorinated pool water.
20	Saraguard-MOSQ / Repello-MSQ	A unique product in a microcapsule form to repel mosquitoes.
