PRODUCT LITERATURE

SARASOFT-I

Product Information

Sarasoft-I is a specially developed softener for cotton, polyester, wool and their blends. It imparts soft and limpy handle to the treated substrate. It does not impair the whiteness or brightness of garments. Sarasoft-I can be applied by pad as well as by exhaust application. Thus, it is suitable to finish the material in any form such as yarn knits, wovens or even garments.

Key Features & Benefits

Key Features

Non-yellowing

Universal softener

Versatile

Benefits

Suitable for finishing of whites & pale shades

Single product for finishing cotton, polyester, wool and their blends and garments

Suitable for padding and exhaust in soft flow / jet dyeing machine.

General Characteristics

Physical Appearance : Off white to creamish liquid
Ionic Nature : Cationic
pH of 1% solution : 5 +/- 2
Miscibility : Miscible with water
Compatibility : Compatible with cationic and nonionic products
Stability : Stable to dilute acids and dilute alkalies

Application

Exhaust process :

Cotton Yarns / Garments

Dosage : 2-6%
Bath pH : 5.0-6.0
