PRODUCT LITERATURE

SARACLEAN-1796

Product Information

Saraclean-1796 is specially designed formulation for removal of stubborn stains, particularly, loom oil stains from texturised polyester fabrics without hand spotting. The product is also suitable for stain removal of polyester/cellulosic and polyester/wool blends since, it does not affect the cellulosic or wool component.

Due to excellent stability at high temperature and alkaline pH, it can be used in weight reduction of polyester.

Key Features & Benefits

Key Features

Chlorinated solvent free

Stable to alkaline pH
and high temperature

Benefits

Eco-friendly

- Suitable in weight reduction of polyester

- Suitable for jet, soft flow or jigger machines

General Characteristics

Physical appearance : Colourless to light yellow to yellow liquid

Ionic nature : Nonionic to weakly anionic

pH of 1% solution : 10 +/-2

Miscibility : Miscible with water,

Compatibility : Compatible with anionic and nonionic products

Stability : Stable to dilute acids and dilute alkalies

Application

1. Exhaust Process

Saraclean-1796 can be applied on jet, jigger or rope scouring machines. The product can be applied at 55-130 deg.C at following concentration

Sarex Chemicals
